The July Package Lands: Ten Statutes Into Force in Six Days

Decrees of 23, 24, 27 and 28 July 2026

This was the week the Milli Majlis's closing legislative burst of the spring session became operative law. Between **23 and 28 July** the President issued **thirteen decrees** that applied **ten separate statutes** — touching the Tax Code, the Labour Code, the Migration Code, the Housing Code, and the laws on aviation, road traffic, execution, medical insurance, psychiatric care and crowdfunding. The Cabinet of Ministers issued a further **sixteen instruments** in the same six days, most of them the second-order implementing steps for the same package. For a single week outside session, this is an unusually dense volume of operative change.

Three of these decrees do more than switch a statute on — they open regulatory projects that will run into 2027. The **Crowdfunding Law** hands six categories of rulemaking to the Central Bank. The **Aviation Law** amendments require the Cabinet to build, from nothing, a regulatory regime for **ultralight aircraft**. And the **Tax Code** decree creates a new VAT-deposit transfer mechanism that commences on **1 January 2027**.

FLAGSHIP — LAW NO. 450-VIIQ "ON CROWDFUNDING"

The decree of **24 July** brings into operation the Republic's first dedicated statutory framework for investment- and lending-based crowdfunding. The President reserves the powers arising under **Articles 3.2 and 18.8**. The **Cabinet** has four months to align presidential acts and three months to designate the offshore zones caught by the Law's restrictions. The **Central Bank** has **six months** to fix the parameters that will decide whether the market is commercially workable: operator capital and minimum aggregate capital thresholds; platform technical standards; per-project and per-platform investment ceilings for individual investors; the funding thresholds triggering mandatory professional-investor participation; investor complaint procedure; and reporting forms.

NEWCOMER — ULTRALIGHT AIRCRAFT REGULATION

The decree of **28 July** applying Law No. 467-VIIQD (Aviation) is the week's quiet surprise: it requires the Cabinet, within **three months** and in coordination with six agencies — the State Security Service, the Ministry of Digital Development, the Ministry of Justice, the Ministry of Youth and Sport, the Strategic Objects Protection Agency and the Tourism Agency — to approve rules on ultralight aircraft airspace use and flight operations. The rules must cover eight mandated areas including technical specifications, registration, operator age/training/medical fitness, permitted and prohibited zones (borders, military sites, aerodromes, special-regime areas), the commercial/non-commercial distinction, pre-flight safety, maintenance and inspection, and the rights and duties of operators. A further **four-month** deadline applies to proposals on liability for breach.

Why this matters for the firm: two entirely new regulated activities — crowdfunding platforms and ultralight aviation — are being built from a standing start, and in both cases the implementing rules are still unwritten. The three-to-six-month windows opening this week are, in practice, the consultation periods. Clients with an interest in either sector are better served by engaging now than by reading the finished rules in the new year.

OFFICE OF THE PRESIDENT **Fərmanlar — Decrees**

Thirteen decrees, 23–28 July 2026 — [president.az](#)

Grouped by subject matter rather than date. Every decree below applies a statute adopted by the Milli Majlis between 30 June and 14 July 2026, except where noted.

FINANCE, TAX & CAPITAL MARKETS

DECREE 24 July 2026

Application of the Law "On Crowdfunding" No. 450-VIIQ of 14 July 2026

Brings the new crowdfunding statute into operation. Powers under Arts. 3.2 and 18.8 retained by the President. Cabinet: four months to align presidential acts; three months to designate offshore zones. Central Bank: six months to issue six categories of implementing regulation (see lead story).

DECREE 28 July 2026

Application of Law No. 445-VIIQD of 13 July 2026 amending the Tax Code

The President assumes the competence under the third sentence of **Tax Code Art. 175.8**, and the "relevant executive body" there is identified as the Cabinet of Ministers. The Cabinet has **three months** to approve the procedure and conditions under which non-oil, private-sector taxpayers may transfer **VAT deposit amounts to the State Social Protection Fund**. Presidential Decree No. 393 of 30 August 2000 is amended accordingly. **Sections 1 and 3 enter into force on 1 January 2027.**

DECREE 27 July 2026

Application of Law No. 452-VIIQD of 14 July 2026 amending the Labour Code, the Civil Code and the laws on currency regulation, investment funds and the securities market

Despite the Labour Code in the title, the decree's operative content is capital-markets institutional: the President exercises the powers under Art. 9-4.5(2) of the Law on Investment Funds; the **Ministry of Economy** is designated the relevant executive body for those provisions; and the **Ministry of Internal Affairs** takes the functions under Art. 48.1-1 of that Law. The Cabinet is to resolve arising questions; no deadline is stated. The decree does not itself specify which Labour Code provisions were amended — the statute text should be consulted directly.

DECREE 24 July 2026

Implementation of Law No. 469-VIIQD of 14 July 2026 amending the Law "On Execution"

Amends Presidential Decree **No. 672 of 5 March 2002**: the reference to the second sentence of Article 27.4 is deleted from paragraph 2.1, and paragraph 2.2-1 is repealed in full. Part one of Presidential Decree **No. 406 of 5 June 2025** — which had implemented Law No. 196-VIIQD of 16 May 2025 on civil procedure and execution — is also repealed. The implementing scaffolding is being pruned, not extended.

MIGRATION & PUBLIC SERVICE

Application of Law No. 465-VIIQD of 14 July 2026 amending the Migration Code and the laws on registration and state fees

Migration administration goes paperless. Approves the form of the decision on extending the temporary stay of foreigners and stateless persons; amends the State Migration Service's regulations to replace physical delivery with electronic issue — documents are executed to electronic-signature requirements, placed in the applicant's e-government portal cabinet and sent to the registered email address. Two earlier decrees (2009 and 2010) are amended to remove references to the paper decision and to update the migration information system.

Amendment to the Regulation on competitions and interviews for candidates for service in the justice bodies

A one-word amendment to paragraph 1.10 of the Regulation approved by Presidential Decree No. 673 of 13 December 2007 (the word "state" is inserted). Minor, but it alters the Regulation's scope wording; anyone advising on entry to the justice service should read the amended paragraph in the consolidated text.

TRANSPORT & AVIATION

Application of Law No. 467-VIIQD of 14 July 2026 amending the Law "On Aviation"

Creates a regulatory regime for **ultralight aircraft** from a standing start. Cabinet: three months to approve rules on airspace use and flight operations, in coordination with six agencies, covering eight mandated subject areas; four months to submit proposals on liability for breach. See lead story. In force on issue.

HEALTH, HOUSING & SOCIAL PROTECTION

Decision on extending the temporary stay of foreigners and stateless persons — approved form

The template approved under the Migration Code decree above, published as a separate instrument and made under **Art. 39.4 of the Migration Code**. The decision carries the State Emblem, a **three-letter series "MOM"** and a **seven-digit number**, the holder's identity and travel-document particulars, the extended period, the registration address, and a **QR code** for automated verification. It is issued in Azerbaijani and English, with names transliterated from the machine-readable zone of the travel document, and it expressly confers the right to exit Azerbaijan when presented with the passport.

Amendment to the Statute of the Ministry of Economy

Amends the Statute approved by Presidential Decree No. 911 of 30 December 2019. Institutional-competence change; read together with the 27 July decree assigning the Ministry new investment-fund functions.

Application of Law No. 471-VIIQD of 14 July 2026 amending the Law "On Road Traffic"

The President assumes the competences previously vested in "the relevant executive body" under **Articles 30 and 85** of the Law. The "relevant information system" is defined as the **central information system of the Main State Road Police Directorate** of the Ministry of Internal Affairs. Five textual amendments are made to the 1998 Regulation approved by Decree No. 24. Read with Cabinet Decisions Nos. 239 and 240 of 27 July.

Application of Law No. 464-VIIQD of 14 July 2026 amending the Laws "On Medical Insurance" and "On the Rights of Persons with Disabilities"

A structural reorganisation of mandatory medical insurance. Implementing authority passes from the State Agency on Mandatory Health Insurance to the **Ministry of Labour and Social Protection of the Population**, with a new **State Medical Insurance and Expertise Agency** established within the Ministry. A "Mandatory Medical Insurance" subsystem is to be formed within the Ministry's centralised electronic information system by **1 January 2027**. The Cabinet has three months to submit draft rules on the classification and investment of MMI fund reserves. Conforming amendments to Decrees No. 502/2019 and No. 634/2019.

Application of Law No. 444-VIIQD of 13 July 2026 amending the Law "On Psychiatric Care"

Puts the psychiatric care amendments into effect and amends Presidential Decree **No. 574 of 3 September 2001**. Relevant to health-sector regulatory work and to capacity, guardianship and involuntary-treatment questions.

Application of Law No. 432-VIIQD of 30 June 2026 amending the Housing Code and the legislation on refugees and internally displaced persons

Implements the housing and IDP-status amendment package adopted at the close of the spring session. Read with the Presidential Order of the same date amending the 2004 State Programme on refugees and IDPs (Section 2) — two instruments touching resettlement entitlements on a single day.

Fourteen of the week's seventeen orders are diplomatic postings — a **wholesale rotation of heads of mission** executed in three tranches on 24, 27 and 28 July, covering Türkiye, Uzbekistan, Italy, Kazakhstan, Tajikistan, the New Delhi cluster, and the Istanbul and Kars consulates general. Several are direct successions, the recall and the appointment issued minutes apart.

DATE	ACTION	OFFICIAL	POST
28 Jul	APPOINTED	E.N. Hüseyinli	Ambassador to the Italian Republic
28 Jul	RECALLED	E.N. Hüseyinli	Ambassador to India, concurrently Bangladesh, Bhutan, Maldives, Nepal and Sri Lanka
28 Jul	APPOINTED	Ə.Q. Əskərov	Ambassador to the Republic of Kazakhstan
28 Jul	RECALLED	Ə.Q. Əskərov	Ambassador to the Republic of Tajikistan
28 Jul	APPOINTED	E.C. Qəhrəman	Ambassador to the Republic of Tajikistan
28 Jul	RECALLED	A.R. Atamoğlanov	Ambassador to the Republic of Kazakhstan

27 Jul	RECALLED	N.E. Mustafayeva	Consul General in Istanbul, concurrently Permanent Representative to the BSEC
24 Jul	APPOINTED	R.F. Aslanov	Ambassador to the Republic of Türkiye
24 Jul	RECALLED	R.F. Aslanov	Ambassador to Italy (concurrently Malta and San Marino); Permanent Representative to FAO, WFP and IFAD
24 Jul	APPOINTED	R.E. Məmmədov	Ambassador to the Republic of Uzbekistan

DATE	ACTION	OFFICIAL	POST
24 Jul	RECALLED	R.E. Məmmədov	Ambassador to the Republic of Türkiye

ORDER	23 July 2026	ORDER	27 July 2026
Amendment to the State Programme on refugees and internally displaced persons		Measures for the first World Championship and Festival in football for boys under 15, to be held in Azerbaijan in 2026	
Amends Presidential Order No. 298 of 1 July 2004 approving the "State Programme on improving the living conditions and increasing the employment of refugees and internally displaced persons". The week's only policy-instrument order.		Organisational and funding measures for the tournament.	
		ORDER	25 July 2026
		M.İ. Yevdayev decorated with the Order "For Service to the Motherland", 1st degree	
		State honour ("Vətənə xidmətə görə" ordeni).	

NAZIRLƏR KABINETİ

Cabinet of Ministers

10 Decisions & 6 Orders — nk.gov.az

The Cabinet's six *Sərəncamlar* this week are all of one kind — instruments securing the execution of a named presidential decree. They are the connective tissue of the July package and are listed separately below.

DECISION	No. 236	24 July 2026	DECISION	No. 241	28 July 2026
Model structure and staff units of enterprises providing restoration, construction and management services in the liberated territories			Amendment to Decision No. 229 of 14 June 2016 on the composition of the Central Conscription Commission for fixed-term active military service		
The most commercially significant Cabinet instrument of the week. Approves a standard organisational template for the entities delivering reconstruction and estate-management services in the territories. Relevant to contractors, sub-contractors and anyone negotiating with these entities.			Membership change to the Central Conscription Commission.		
DECISION	No. 240	27 July 2026	DECISION	No. 238	27 July 2026
Rules on refunding to the vehicle owner the sum paid for removal of a vehicle to, and its storage at, an impound lot			Amendment to the List of unified indexes established for state bodies, state-owned legal entities and those whose controlling shareholding belongs to the state, public legal entities created on behalf of the state, and commissions (Decision No. 350 of 15 September 2022)		
A new refund procedure where a vehicle has been impounded. Directly useful to road-traffic and administrative practice, and to insurers handling recovery claims.			Administrative indexing change affecting official correspondence and document referencing across the state sector.		
DECISION	No. 239	27 July 2026	DECISION	No. 237	24 July 2026
Amendments to certain Cabinet decisions pursuant to Presidential Decree No. 559 of 26 December 2025 (Law No. 307-VIIQD of 9 December 2025, "On Road Traffic")			Amendment to the unified budget classification (Decision No. 440 of 11 October 2018)		
The Cabinet-level limb of the road traffic reform, catching up with the December 2025 amendments.			Technical, but consequential for public-sector reporting lines and for clients whose funding flows through classified budget headings.		
DECISION	No. 233	24 July 2026	DECISION	No. 235	24 July 2026
Repeal of Decisions No. 118 of 1 May 2014 and No. 38 of 29 January 2022			Amendments to certain Cabinet decisions in connection with Law No. 364-VIIQD of 27 February 2026 amending the Law "On Cinematography"		
A deregulatory step: repeals in full the List of information systems and resources required to connect to the "Electronic Government" portal together with its Technical Requirements, and the thresholds for integrating electronic information resources into the unified state procurement internet portal. Compliance teams relying on either instrument should stop doing so and look for the replacement framework under the E-Government Information System Statute.			Secondary legislation catching up with the February cinematography amendments. Of interest to media, production and IP practices.		
DECISION	No. 232	24 July 2026	DECISION	No. 234	24 July 2026
Amendments to the Requirements for the energy management system (Decision No. 310 of 17 August 2022) and to the rules and criteria for assessing efficiency potential in electricity and heat generation and natural gas processing (Decision No. 123 of 18 April 2023)			Amendments to the annual per-student cost of state-order education at bachelor's and basic medical education levels (Decision No. 120 of 25 June 2010) and to the Rules on student admission to higher education institutions (Decision No. 39 of 8 February 2017)		
Energy-efficiency compliance obligations for generators and gas processors are adjusted. Relevant to energy and industrial clients running mandated energy management systems.			Adjusts both the state-order funding rate per student and the admission rules. Relevant to education-sector clients and to state-order contracting.		

CABINET ORDERS — SECURING EXECUTION OF PRESIDENTIAL DECREES

DATE	NO.	SECURES EXECUTION OF	UNDERLYING STATUTE
28 Jul	531s	Presidential Decree No. 731 of 22 July 2026 approving the Statute of the "Centre for Analysis of International Relations and Multiculturalism" public	—

DATE	NO.	SECURES EXECUTION OF	UNDERLYING STATUTE
		legal entity	
27 Jul	530s	Presidential Decree No. 727 of 20 July 2026 (amending Decree No. 2307 of 19 August 2023 on public procurement)	Law No. 447-VIIQD of 13 July 2026, "On Public Procurement"
27 Jul	529s	Presidential Decree No. 726 of 17 July 2026 (amending Decree No. 936 of 4 July 2013 on customs tariff)	Law No. 441-VIIQD of 10 July 2026, "On Customs Tariff"
23 Jul	521s	Direct execution of the statute	Law No. 433-VIIQD of 7 July 2026 amending the Milli Majlis Internal Rules, the Law "On Public Participation" and the Law on citizens' exercise of the right of legislative initiative
23 Jul	520s	Presidential Decree No. 725 of 17 July 2026 on additional measures for involving citizens and civil society institutions in public administration, amending the Statute on the E-Government Information System (Decree No. 472 of 12 August 2025)	—
23 Jul	519s	Presidential Decree No. 722 of 15 July 2026 amending certain presidential decrees	Law No. 388-VIIQD of 21 April 2026 amending the Administrative Offences Code

No parliamentary activity in the reporting period. The Milli Majlis is in summer recess. All four monitored registers were checked and none records an entry between 23 and 28 July 2026: the most recent laws are dated **14 July 2026**, the most recent parliamentary decree **26 May 2026** (No. 411-VIIQR), the most recent bills tabled **14 July 2026**, and the most recent report **26 May 2026**. The autumn session will resume the legislative programme adopted under Decree No. 342-VIIQR.

Carried forward — bills tabled 14 July. Nineteen bills were placed on the agenda at the close of the spring session and remain live for the autumn: amendments to the Constitutional Law "On Normative Legal Acts"; to the Civil, Criminal, Tax, Labour, Land, Migration and Administrative Offences Codes; to the laws on public service and media, on information and its protection, on energy efficiency, on aviation, on road traffic, on state duty and licensing, on selection achievements, and on real estate; and new draft laws **on seed production** and **on fisheries**. The Land Code package flagged in Issue No. 1 remains on the agenda.

No decisions handed down in the reporting period. The portal was retrieved successfully this week (it was unavailable when Issue No. 1 was compiled). The most recent decision on the register is dated **25 June 2026**, interpreting Articles 3.1 and 3.1.2 of the Law on Combating the Legalisation of Criminally Obtained Property and the Financing of Terrorism. Also from the June term, and not previously reported in this digest: **24 June** (Art. 420 of the Criminal Procedure Code, judicial independence), **23 June** (the A. Şükürova complaint — conformity of Art. 14.2 of the Housing Code with Arts. 29(III) and 71(I, II) of the Constitution), **22 June** (Arts. 122.2.3 and 449.3 CPC) and **16 June** (Arts. 329.1, 337.1 and 739.2 of the Civil Code — equality and property rights). The 23 June Housing Code decision is worth reading against the Housing Code amendments brought into force on 23 July.

⚠ Data Not Extractable. The e-Qanun portal continues to render its listings dynamically via JavaScript and exposes no static index to automated review; the retrieved page contained no act data. All acts reported in this issue were sourced from the issuing institutions' own

registers (president.az, nk.gov.az) and, for the principal decrees, from the full text of the instrument itself. Readers should consult e-qanun.az directly for the consolidated, in-force texts before advising on any item above.

OFFICE OF THE PRESIDENT

Diplomatic Correspondence

Letters — 23–28 July 2026

DATE	DIRECTION	COUNTERPARTY	OFFICE	OCCASION
26 Jul	OUTBOUND	Mohamed Muizzu	President of the Republic of Maldives	Independence Day greeting
23 Jul	OUTBOUND	Abdel Fattah El-Sisi	President of the Arab Republic of Egypt	Revolution Day (23 July) greeting

Context: correspondence volume is low, consistent with the summer period, and the substantive diplomatic instrument of the month sits just outside this window — the Azerbaijan–Germany *Joint Declaration on a Strategic Agenda for the Bilateral Partnership* and the accompanying press statements with Federal Chancellor Friedrich Merz, both dated **21 July 2026**. Teams advising on German-market trade, energy and investment should review that declaration. The scale of this week's ambassadorial rotation (Section 2) is the more telling diplomatic signal.

COMPLIANCE DIARY

Deadlines Created This Week

Derived from the decrees of 23–28 July 2026

INDICATIVE DUE DATE	RESPONSIBLE BODY	OBLIGATION	SOURCE INSTRUMENT
~24 Oct 2026 (3 months)	Cabinet of Ministers	Determine the offshore zones to which the Crowdfunding Law's restrictions attach	Decree of 24 Jul (Law 450-VIIQ)
~24 Oct 2026 (3 months)	Cabinet of Ministers	Submit to the President draft rules on the classification and investment of mandatory medical insurance fund reserves	Decree of 24 Jul (Law 464-VIIQD)
~28 Oct 2026 (3 months)	Cabinet of Ministers	Approve the procedure and conditions for non-oil private-sector taxpayers to transfer VAT deposit amounts to the State Social Protection Fund (Tax Code Art. 175.8)	Decree of 28 Jul (Law 445-VIIQD)
~28 Oct 2026 (3 months)	Cabinet of Ministers + 6 agencies	Approve rules on ultralight aircraft airspace use and flight operations, covering eight mandated subject areas	Decree of 28 Jul (Law 467-VIIQD)
~24 Nov 2026 (4 months)	Cabinet of Ministers	Submit proposals bringing presidential acts into conformity with the Crowdfunding Law	Decree of 24 Jul (Law 450-VIIQ)
~28 Nov 2026 (4 months)	Cabinet of Ministers	Submit proposals on liability for breach of ultralight aircraft airspace and flight requirements	Decree of 28 Jul (Law 467-VIIQD)
1 Jan 2027 (fixed date)	Ministry of Labour & Social Protection	Complete formation of the "Mandatory Medical Insurance" subsystem within the centralised electronic information system	Decree of 24 Jul (Law 464-VIIQD)
1 Jan 2027 (fixed date)	—	Sections 1 and 3 of the Tax Code decree enter into force (VAT deposit transfer mechanism commences)	Decree of 28 Jul (Law 445-VIIQD)
~24 Jan 2027 (6 months)	Central Bank (CBAR)	Adopt regulatory acts on operator capital and minimum aggregate capital; platform technical standards; retail investment ceilings per project and per platform; professional-investor participation thresholds; investor complaint procedure; reporting forms and filing procedure	Decree of 24 Jul (Law 450-VIIQ)

Due dates are computed from the date of the relevant decree and are **indicative**. The operative instruments express these obligations as periods ("within three months", "within six months"); the precise running of time should be confirmed against the published texts before any date is diarised for a client.

1. A New Market Opens — Crowdfunding

Law 450-VIIQ is the first Azerbaijani statute to regulate crowdfunding as a distinct activity, and the 24 July decree starts the clock on the Central Bank's rulemaking. Until the CBAR acts land, the perimeter — who counts as an operator, what capital they must hold, what a retail investor may commit — is undefined. Corporate, banking and fintech teams should be scoping platform structures now and treating the next two quarters as the window in which this market's commercial parameters are settled.

3. Migration Administration Goes Paperless

The 27 July Migration Code decree and its approved decision template replace physical documents with electronically signed instruments delivered to the applicant's e-government cabinet and email. The new temporary-stay extension decision carries an "MOM" series, a seven-digit number and a QR code, is bilingual, and expressly confers the right to exit on presentation with a passport. Immigration practices should update client guidance on what a valid extension now looks like — and stop expecting a paper decision.

5. Health Insurance Administration Restructured

The 24 July decree on Law 464-VIIQD moves mandatory medical insurance out of the standalone State Agency and into the Ministry of Labour and Social Protection, creating a State Medical Insurance and Expertise Agency inside the Ministry. This is a change of counterparty as much as of competence: employers, insurers and providers should identify every contract, filing and correspondence channel currently addressed to the Agency. The 1 January 2027 systems deadline is the practical migration date.

2. Ultralight Aviation From Zero

The aviation decree of 28 July is the most striking new regulatory project of the week. An entire licensing-and-operations regime for ultralight aircraft must be built within three months, spanning registration, operator medical and training standards, geographic no-fly zones and the commercial/non-commercial divide — with liability rules following a month later. Any client operating, importing or insuring light aircraft should expect to be regulated for the first time, and should engage during the drafting window.

4. Road Traffic — A Three-Instrument Package

The 28 July decree applying Law 471-VIIQD names the Road Police's central information system as the statutory "relevant information system" and pulls competences under Arts. 30 and 85 to the President. Cabinet Decisions 239 and 240 of 27 July complete the picture, the latter introducing a refund procedure for impound removal and storage charges. Administrative and insurance practices now have a concrete recovery route for wrongly impounded vehicles.

6. Two Quiet Deregulatory Moves

Cabinet Decision 233 repeals outright the 2014 list of information systems required to connect to the e-government portal (with its technical requirements) and the 2022 procurement-portal integration thresholds. The execution decree of 24 July likewise deletes rather than adds, pruning Decree 672/2002 and revoking part of the 2025 implementing decree. In both areas the instruction is the same: verify that any compliance position or enforcement strategy still rests on a live provision.
