A busy legislative week saw the President of the Republic sign **six decrees** spanning civil-aviation governance, citizens' rights, the capital's administration, and a pronounced economic-stimulus thrust — new mechanisms for entrepreneur credit guarantees, non-oil export support, and agrarian finance. The Cabinet of Ministers issued **eleven decisions and four orders**, advancing the renewable-energy land programme and adopting major sectoral rules for railways and gas supply. Parliament placed a wide-ranging package of bills — headlined by a Land Code overhaul — before its members on 12 June. Below, Omni Law's editorial desk distils the week's instruments by issuing institution, with practitioner notes in the Regulatory Spotlight.

REGULATORY SPOTLIGHT — KEY THEMES, WEEK 24 / 2026

1. Economic-Stimulus Trio (9 June)

Three presidential decrees in two days target private-sector finance: enhanced credit guarantees and interest subsidies for entrepreneurs, new non-oil export incentives with transport-cost support, and a recapitalised agrarian-credit framework. Together they signal an active diversification agenda. Clients in export, agribusiness and SME finance should review eligibility criteria once the implementing rules are gazetted.

3. Energy & Infrastructure Rulemaking

The Cabinet adopted railway-infrastructure maintenance/use Rules (No. 171), restructured the gas-supply regime (No. 173, repealing legacy 1999/2023 rules), advanced the renewable-energy land bank in Hacıqabul/Jabrayil (Nos. 176–178), and confirmed Government guarantees for the SOCAR–Gran Tierra PSA (No. 174). Energy, projects and land-rights teams should treat this as a high-activity quarter.

2. Civil Aviation Governance

The 12 June decree adopting Rules on the Management of Airports introduces a dedicated governance regime for airport operators. Parties to airport concession, ground-handling or infrastructure contracts should assess alignment with the new Rules and any transition provisions.

4. Capital Governance & Citizens' Rights

Two 10 June decrees reshape administration: a restructuring of the Baku City Executive Authority, and the entry into force of the amended Law on Citizens' Appeals with conforming changes to the 2016 appeals-handling Rules. Public-law and administrative-litigation practitioners should note revised procedural touchpoints for dealings with state and municipal bodies.
