Editorial note on this issue: This was a quiet week across most registers — consistent with Milli Majlis's summer recess and a routine lull at the Cabinet of Ministers and Constitutional Court. The President's office was the only source with confirmed activity dated within the reporting window. Where a decree's text could not be pulled directly from president.az (its decree/order archive is JavaScript-rendered and did not resolve on this pass), the entry is corroborated against wire reporting (APA.az, Trend.az, Axar.az) that cites president.az as the primary source and gives an exact signing date; this is flagged per item below.

OFFICE OF THE PRESIDENT

Presidential Decrees

Fermanlar — 10–14 August 2026

The President signed four decrees during the reporting period, spanning cybersecurity governance, agricultural regulation, statistical cooperation with Belarus, and public-finance oversight infrastructure.

DECREE

10 Aug 2026

Implementation of Amendments to the Law "On Information, Informatization and Protection of Information"

Establishes Computer Emergency Response Teams (CERTs) for information infrastructure supporting public functions, and directs the Cabinet of Ministers to draft rules for the cybersecurity of state-body and strategic-facility information systems, plus a regulatory sandbox framework for testing new security measures.

DECREE

13 Aug 2026

Implementation of the Law "On Seed Production"

Directs the Cabinet of Ministers to establish state-control procedures and a seed and breeding-stock registry within five months, operationalizing the newly adopted Seed Production Law.

OFFICE OF THE PRESIDENT

Diplomatic Correspondence

Letters & Messages — 9 August 2026

DATE	DIRECTION	RECIPIENT	SUBJECT
9 Aug 2026	Outgoing	Tharman Shanmugaratnam, President of Singapore	Congratulatory letter on Singapore's national holiday.

IQTISADI KABINET / NAZIRLƏR KABINETI

Cabinet of Ministers

Decisions & Orders — 9–16 August 2026

No new items in this reporting window. The Cabinet's public register ([nk.gov.az](#)) shows no Decisions or Orders dated between 9 and 16 August 2026 as of publication. The most recent batch on record — Decisions No. 253–258 and Orders No. 591s–599s, dated 3–4 August 2026 (covering competition-authority market concentration rules, workplace-accident insurance procedures, the 2026–2030 Employment Strategy action plan, and Crowdfunding Law implementation, among others) — was reported in Issue No. 8.

PARLIAMENT OF AZERBAIJAN

Milli Majlis

Laws, Decrees, Bills & Reports — 9–16 August 2026

No new items in this reporting window — Parliament appears to be in summer recess. All four Milli Majlis registers (laws, decrees, current reports, and bills) were checked; none list anything dated 9–16 August 2026. The most recent enacted laws (No. 472-VIIQD, 455-VIIQ, 450-VIIQ) and the most recent slate of nine bills under discussion both date to 13–14 July 2026. The most recent parliamentary decree (judicial appointments to the Baku, Ganja, Sumgayit, Sheki and Shirvan Courts of Appeal and the Supreme Court) dates to 26 May 2026, as does the most recent activity report.

CONSTITUTIONAL COURT OF AZERBAIJAN

Constitutional Court

Decisions — 9–16 August 2026

No new decisions in this reporting window. The Court's published decisions register shows nothing dated between 9 and 16 August 2026. The most recent decision on record is dated 25 June 2026 (interpretation of Articles 3.1/3.1.2 of the Anti-Money-Laundering and Counter-Terrorist-Financing Law). [e-qanun.az](#), Azerbaijan's national normative-acts register, did not return usable content on this pass and could not be cross-checked.

The 10 August decree operationalizes the CERT requirement flagged in earlier information-security reforms. Clients operating information systems that support "public functions" — a category likely to be defined broadly by the Cabinet's forthcoming implementing rules — should start scoping what a CERT stand-up would require, and watch for the regulatory sandbox framework, which may offer a lower-friction path to pilot new security tooling ahead of full compliance deadlines.

Pairing the new State Audit information system with the Chamber of Accounts' existing oversight mandate suggests a move toward continuous, data-driven audit rather than periodic review. Entities that receive state funding or operate under state audit jurisdiction should expect increased data-reporting requests as the system comes online.
